MORE THOROUGH TEACHING NEEDED

—SAYS F. A. THOMPSON.

TALKS BEFORE COUNTY TEACHERS THIS MORNING.

ADVICE TO NOVICES

Given by Somerville, County Superintendent, In Making Announcements at Teachers Meeting.

Pleading for more thorough and definiteness in their teaching methods, F. A. Thompson, rural school inspector of this district, spoke before the teachers of Nodaway County at the auditorium of the High School at the opening session of annual summer teachers' meeting this morning.

Mr. Thompson's subject was relative to the "Elementary School Program of Northwest Missouri." Mr. Thompson hoped that the teachers of this county realized that education is an investment and also desired that the people of this section of Missouri could be of the same opinion and asked the teachers to instill such sentiment.. At the same time he mentioned the fact that although teachers' salaries had been lowered in some counties of Missouri, the same scale had remained intact in Nodaway County.

At two o'clock this afternoon there were 195 teachers registered for the meeting at the high school building. A large number of teachers were attending the division meetings and had not registered at that time.

Recommending to the teachers the course in citizenship that has been outlined in the state course of study, Mr. Thompson said that teaching citizenship to the pupils while they are in the plastic state is one of the paramount objects of schooling.

The rural school inspector also spoke briefly concerning teachers following the ethics of the profession. He said that "we must cease to run harem-scarem through the country applying for jobs" but asked the teachers not to apply for a job until they knew that the school was open and that there was a vacancy that had to be filled.

Filing applications for schools where it is known that the place is filled and also quoting a lower salary than is being given, was unethical and should not be practiced, was the opinion Mr. Thompson rendered. He spoke briefly of the demonstration schools that would be conducted in this county during the school year and asked all the teachers to attend the demonstration schools with a lively interest.

In winding up his talk to the teachers of the county present at the meeting Mr. Thompson pleaded for more thorough teaching and asked for the elimination of the hit-and-miss process. He wished that the teachers of Northwest Missouri to begin with the opening of school next week to put their efforts to the best ability, realizing the responsibility of their position and yet at the same time the glorious opportunity before them. He asked the teachers to teach the best they were capable and every day do the best of their ability.

The opening session of the two-days' summer teachers' meeting was attended by nearly seventy-five teachers. Leslie G. Somerville, county supt. of schools, made several important announcements and gave timely advice to the new teachers, saying that next Monday when school begins in this county 50 per cent of the rural school teachers would begin their first day's work.

Mr. Somerville also spoke about first class schools. In his remarks he mentioned that Nodaway County now leads in first class schools in this state but the important object was to keep in this position.

After Mr. Thompson's address the teachers were required to register while Mrs. Sylvia Adcock gave a short demonstration lecture on primary songs.

During the afternoon session the teachers met in three different groups according to their special line of teaching for the purpose of discussion and hearing timely speeches.

The grade teachers met with Addie Carpenter as chairman of the meeting; the rural school teachers, with Elizabeth Shamberger as chairman were in session and Ed Adams was was chairman of the meeting of the high school session. At the latter meeting Charles Wallace, O. E. Jones, Harry B. Rutledge, Mr. Somerville, Hubert Garrett and S. C. Richeson, high school inspector, gave talks.

Tomorrow morning the teachers will again meet together in the High School auditorium and again at 1:30 o'clock in the afternoon.

MARYVILLE HOST 1925 TOURNAMENT

OF IOWA-MISSOURI GOLF ASSOCIATION.

NO DECISION MADE

However Indications Are That This Town Is the Logical Place for Next Year's Event.

If plans work out according to present indications the 1925 Iowa-Missouri Golf Association open tournament will be played in Maryville.

Clarinda, Red Oak, Shenandoah, and Maryville are the only towns in the association with courses that are in a state of improvement to permit an association tourney. As the tournament this year was held at Clarinda and as alphabetically Clarinda comes first it was the decision of those at the tournament that Maryville would be the logical place for next year's meet.

Local golfers have expressed their wish that the tournament be held here. The local course will be much better next year and the interest taken in the game warrants the choice.

The new clubhouse will be completed and all facilities for the adequate handling of a large tournament will be on hand.

The tourney just completed at Clarinda was a success from all angles. Each match was well handled and the townspeople of Clarinda were more than hospitable, according to the Maryville men who played.

No decision has been made definitely on the matter but it will be decided in the near future.

Hopkins Woman Takes Poison

(Hopkins Journal).

Deciding she was tired of living, Mrs. Frank Thompson, on the George Ulmer Jr. farm, 4 miles southwest of Hopkins, took poison about noon last Monday. When the husband came in for dinner, he noticed something was wrong and his wife told him what she had done. He at once called Drs. Maxwell and Sargent and although Mrs. Thompson had been in convulsions, they succeeded in saving her life with the use of a stomach pump and the proper medicines. She had taken fully a grain of strychnine and as a twelfth of a grain is enough to prove fatal, it is a wonder her life was saved.

RADIO UNITED PALS.

In 1908 Ernest Kessler and Dallas E. White started together in the radio business at Alva, Okla. The two worked together as partners until in 1911 when Mr. Kessler moved to California. Two years later Mr. Kessler returned to his old home town only to find that his partner had moved to the eastern coast. Mr. Kessler made all kinds of efforts to locate his partner but was unsuccessful.

In 1917 Mr. Kessler moved to Maryville to become an employee of the Hanamo Telephone Company. All of the time he has been an ardent radio fan and now has a small powered station, 9 D. V. P.

About two weeks ago Mr. Kessler was looking through the Amateur Radio Call Book and found the name of Dallas White, his partner in Oklahoma, who is now operating a station at Brockton, Mass., under the call letters of 1 E. U. Mr. Kessler immediately wrote to his former partner and now the two are in touch with one another again—thanks to radio. Mr. Kessler said this morning that he could receive White's station on his radio set but his own sending set was not powerful enough to reach the eastern coast.

DAVIS PREPARING TO INVADE WEST

WILL DISCUSS AGRICULTURAL RELIEF AT OMAHA.

HAS A DEFINITE PLAN

September 6 He Will Urge Lower Tariff and Freight Rates and Better Marketing.

Locust Valley, N. Y., Aug. 28.—John W. Davis, Democratic presidential nominee, remained in seclusion today preparing an oratorical broadside for his coming invasion of the West.

Davis was busy with the actual compiling of data for use in preparing an agricultural speech to be made at Omaha on September 6.

The Omaha speech will mark the nominee's first big bid for the farmer vote. In it he will promise a definite program of legislation and administrative relief for the agricultural West. Among the proposals to be incorporated in the address, it was said, would be pledges of lower tariff rates on articles bought by the farmer, reduced freight rates, active government aid for co-operative marketing, creating a federal agency for distribution of crop news, and the adoption of a foreign policy intended to revive European markets.

The nominee, it was said, is anxious to get Charles W. Bryan's views on relief measures needed by the western farmer and will visit Bryan in Lincoln while he is in the West.

Davis will go to Chicago Monday night.

On his return from the West, Davis will probably invade New England in an effort to carry several of President Coolidge's "home states." The candidate will speak in Maine, New Hampshire, Massachusetts, and Rhode Island.

The Women's Progressive Farmers' association was commended. Members of the association were urged to support in the fall election those representatives who supported the McNary-Haugen farm relief bill and to oppose those who were against it. A resolution also was adopted, thanking Sedalia and its citizens for courtesies extended during the convention.

VERDICT OF LOEB-LEOPOLD, SEPT. 10

THEN ONLY IN PRESENCE OF RELATIVES AND ATTORNEYS.

JUDGE REBUKES CROWE

States Attorney Reprimanded for Stating That Defendants Had "Friendly Judge."

Chicago, Aug. 28.—Nathan F. Leopold, Jr., and Richard A. Loeb, the intellectual collegians, who slew Bobby Franks "for a thrill" will be informed on September 10 whether they will pay with their lives on the gallows or with life term imprisonment for that wierd crime.

Judge John R. Caverly fixed this date today at the conclusion of the case which has occupied nearly six weeks.

On that day Loeb and Leopold, their attorneys, and relatives will gather again to hear their fate and no one else will be admitted on that day. Judge Caverly warned in making announcement from the bench.

An otherwise drab conclusion to the trial was broken by a stinging rebuke which Caverly administered to state attorney Crowe.

Crowe had referred in his speech to a statement made by a witness, wherein Leopold was quoted as saying that he could plead guilty before a friendly judge and get a life sentence instead of the gallows.

"I do not know," Crowe shouted, "whether the court believes this or Leopold ever said this but I submit that anyone who has observed the acts of this defendant in court or the actions of his relatives or attorneys, know they believe they have a friendly judge."

Judge Caverly's face reddened a little but he said nothing. A few moments later, however, when Crowe had finished his rebuke was instant and sharp.

"The court will order the closing remarks of the state attorney striken from the record. It is a plain attempt to intimidate this court and this court will not be intimidated," he said plainly.

Crowe tried to interrupt with a protest but was waved down with a warning gesture and Caverly calmly read a written statement he had prepared which set the date of Sept. 10 for decision and contained a spirited answer to those who have "criticised the conduct of this case."

LARGEST CIRCULATION IN NODAWAY COUNTY.

MORE NATIVE STOCK.

The native population of the United States is on the increase, according to Dr. Raymond Pearl of the School of Hygiene and Public Health of John Hopkins University at Baltimore. Dr. Pearl estimates that what he considers the maximum population of the country, 197,274,000, to be reached in 2100, will be even more distinctly American than the stock today.

Dr. Pearl's figures are based on a study of the birth and death rate figures from registration states during the period from 1915 to 1921, inclusive. They show that the native born American, whose birth rate was virtually equal to the death rate in 1915, rose to 142 births to 100 deaths in 1921. In 1915 foreign born mothers were giving birth to 267 children to every 100 deaths. In 1921 this ratio had been reduced to 237 births in every 100 deaths.

To persons who had manifested apprehension that the native American stock faced extermination due to the influx of aliens this news is quite encouraging. The gain of the native stock as against that of the alien is slow, to be sure, but it is steady, and as Dr. Pearl points out, ultimately will give the native stock a decided advantage. The present immigration restrictions should also advance the ratio of native growth.

WAR AS A CRIME.

Governor Gifford Pinchot of Pennsylvania would outlaw war as a crime. In his words delivered at a Chautauqua the chief executive of the state said:

"There are two things to do about war. One is to prevent it from coming. The other is to be ready for it, if, unhappily, it should come. In the present stage of world civilization both are absolutely necessary. We have outlawed duels, slavery, the saloon. Why cannot we outlaw war?"

John W. Davis says the greatest difference between the two old parties this year is that "A Democrat wants the record of his party remembered and a Republican wants the record of his party forgotten."

Our astronomical eyes it seems couldn't see very much of Mars even though the planet was only 35,000,000 miles distant. It doesn't matter much. Mars will be back in 120 years and by that time maybe we will have bigger telescopes and better radios.

A Chicago burglar, now in jail and facing a long term in prison finds that after committing 100 robberies, that his family was in want and he hadn't been able to save as much as when he ran a truck farm and made a living honestly. And, come to think of it, how many did you ever know who lived a life of crime and were able to accumulate anything or exist in peace? Most of them go to prison, some of them come to untimely ends and a very few manage to evade the detectives who are always on their trails. Honesty and work are the only means by which men ever successfully lived in comfort or peace. And this is a fact that boys can not learn too early.

Many Governors to Attend Exercises

Missouri's New State Capitol To Be Dedicated On Monday, October 6.

Governor L. F. Hart of the state of Washington, a native-born Missourian, will be among the notables who are to attend the dedicatory exercises of Missouri's new State Capitol on Monday, October 6. The governors of eight states have signified their intention of attending these ceremonies and taking part in them.

Approximately 4,000 persons will receive special invitations, personally signed by Governor Arthur M. Hyde and this list will include distinguished personages from all over the United States, Floyd C. Shoemaker of the State Historical Society preparing the list.

It is expected that many of the pieces of decorations that have been in the course of making will be in place by the date of the dedication, the imposing figure of the Goddess of Harvest which is to grace the top of the Capitol dome being now almost ready to be shipped here. Practically all of the unfinished paintings will be placed by that time.

The fact that $700,000 was appropriated merely for the decorations of Missouri's magnificent Capitol and that this sum has been most wisely expended in the most worth while way, makes the dedicatory occasion merely as a sight-seeing event, one of outstanding importance.

Reservations from out in the state are already being made at Jefferson City hotels, and a housing committee of local women are in charge of the plans for entertaining the many thousands of visitors at the dedication, including the 114 Queens, one from each county, who are to participate in the ceremonies. These young ladies are to be under the chaperonage of the Women's Committee and every courtesy will be extended them.

Kansas City, Aug. 28.—Sometime before February 26, 1925, possibly during January, Kansas Cityans will have an opportunity to vote on a city charter of the council-manager type. Before that time a city-wide organization for the distributing of information on the proposed new charter, working for its adoption, and for propoting its proper operation if adopted, will be perfected.

A Better Wheat Crop Than Other Sections

Kansas City, Aug. 28.—The wheat crop of Kansas City's trade territory, excepting Missouri is far better than that of any other section. Figures comparing this year's crop with that of 1923 as compiled by the United States Department of Agriculture and the Missouri State Board of Agriculture show Kansas, Nebraska, Oklahoma, Colorado and Texas as having an increase in better wheat.

In workmanship, materials and design both Hudson and Essex are of one quality—built in the same factories, under the same patents. Your choice between them will rest solely on the price you want to pay.

You see the Coach everywhere in increasing numbers Everyone wants closed car comforts. They will no longer accept half-utility when all-year usefulness and comforts cost no more in the Coach.

12 Danger Signs of Bad Investments

Kansas City Chamber of Commerce Lists Characteristics of "Blue Sky" Propositions.

Kansas City, Aug. 28.—The Kansas City Chamber of Commerce has published in the current issue of their "House Organ," a list of twelve danger signs of bad investments, which are given below:

1. Stay away from mining stock in general. It takes more than the man working for a salary has to afford good mining stock.

2. Oil stock. Drilling for oil is costly. Oil stock investments are speculative and in a class with mining stocks.

3. In the wake of every important discovery or invention there comes a host of schemes—"airplanes," "radio," "wireless." The promoters of these may have only the best inventions, but frequently their enthusiasm is about all they have to sell.

4. Investment in "real estate" situated in some distant place is sometimes dangerous as mining stock.

5. "Land development" schemes frequently do not pan out. Investment in "new companies" that are going to "sell by mail" should be generally avoided.

6. Patent rights and processes distribution. It is rarely the patentee who makes the money.

7. "New manufacturing methods" should always be closely checked and investigated.

8. An investment requiring a quick decision is often a fake.

9. "Special inducements" in cash discounts or stock bonuses urging you to be one of the first to invest are suspicious symptoms.

10. "Tips" alleged to land you "on the ground floor" are rarely to be taken. Those who are "on the ground-floor" will monopolize the opportunity.

11. "Playing the stock market on margin" and all other forms of speculation are decidedly not for the small investor. If you buy stocks cutright for investment do so through a member of a legitimate exchange.

12. Stock in "mail order companies" being organized with promises based on what others have done rarely turn out well.

LITTLE STORY FOR TODAY.

A bellboy has invented an ingenious system of calling sleepy guests. The other night a man left instructions that he wished to be called early.

Next morning he was disturbed by a tattoo on the door.

"Well?" he demanded sharply.

"I've got a message for you, sir."

Yawning until he strained his face, the guest jumped out of bed and unlocked the door. The bellboy handed him an envelope and then went away quickly.

The guest opened the envelope and took out a slip of paper bearing the words: "Its time to get up."

A friendly salesman at a clothing store tells us that boys' clothing experiences a big slump in summer vacation time," he explained.

WEAK, SUFFERING WOMEN SHOULD TAKE KARNAK, SAYS TRAINED NURSE.

"I feel it my duty to tell other suffering women about Karnak," declares Mrs. Donna Lamborn, popular trained nurse, residing at 1224 Trust Ave., Kansas City, Mo.

"For the past three years I was simply miserable from headaches, dizziness, nervousness, weakness and aching pains through my whole body. I would get so upset that I would just cry without knowing what I was crying about. I had awful stomach cramps, too, was losing weight, didn't have any color in my face, couldn't rest at night, and began to fear I would break down completely.

"But this wonderful Karnak has rid me of all the aches and pains. It has made my digestion perfect, I am gaining weight, my cheeks are filling out, and I now feel cheerful and happy. I believe any woman who suffers as I did should take Karnak two or three times a year. It's just grand."

Karnak is sold in Maryville exclusively by Maryville Drug Co.—Adv.

Winter's Herefords Bring Highest Top

Barnard Cattle Raisers Sell 24 Yearlings At Kansas City for $11.25—An Unsorted Bunch.

In a run of 30,000 cattle Monday at the Kansas City cattle market, Winter Bros., of Barnard, topped the market at $11.25 per hundred weight, with twenty-four yearling steers that averaged 979 pounds.

This price was 50 cents higher than any other steers sold on that date and was the highest price paid for an unsorted bunch, straight feed lot cut, in several weeks.

In the last ten days some yearlings sold at $11 and $11.25, but several head were sorted out at a much lower figure.

Winter Bros., bought these cattle on the same market the first week in June at $9.25, when they weighed 700 pounds.

They were fed eighty days in which time they gained 200 pounds and brought a margin of $2 over first cost. They were choice native bred Herefords.

Nodaway Cattle Sell at $9.50 at St. Joe

Three Nodaway County cattle raisers marketed steers and heifers on the St. Joseph market yesterday and received a cash value of $9.50 for them. W. F. Welch sold a load of 889 pound steers and heifers; J. M. Slagle cashed a load of 840 pound steers and heifers; and M. M. Ashford marketed a load of 899 pound yearlings.

Maryville People Must Believe Such Convincing Testimony as Mr. Bryan's.

No one in Maryville who suffers backache, headaches, dizziness, rheumatic pains or distressing urinary ills can afford to ignore this twice-told story of a Maryville resident. It is confirmed testimony, telling of lasting benefit from Doan's Pills—a stimulant diuretic to the kidneys. It's evidence that no man or woman in Maryville can doubt.

J. N. Bryan, retired farmer, 222 Eleventh St., says: "I had intense soreness through the small of my back, which caused great pain when I tried to bend or straighten quickly. My kidneys acted too frequently, also. I used Doan's Pills and I found great relief. After using Doan's awhile I was cured.

Four years later, Mr. Bryan said: "I have had no return of the trouble since Doan's cured me."

AUTOS TO RACE UP PIKE'S PEAK

SEVENTEEN DRIVERS GROOMING THEIR MOUNTS.

$10,000 CUP OFFERED

In Addition To Cash Prizes—Will Be A Three-Event Affair Labor Day.

Denver, Aug. 28.—With the roaring motors of 17 powerful automobiles already in training over the hazardous course, the annual Pike's Peak automobile climb will be staged Monday, September 1.

The hill climb is one of the most spectacular events in American automobile racing, the course being over a distance of 12½ miles of the world's highest highway. It is a double track boulevard 20 to 50 feet wide all the way and is as smooth and even as a pavement.

Added interest is involved in this year's competition, as the Penrose Trophy, a silver-and-gold cup standing forty-three inches high and valued at $10,000 will be awarded in addition to the valuable cash prizes.

The climb, a three-even affair run in one race, is conducted under the sanction of the contest board of the American Automobile Association and is promoted by the Pike's Peak Auto Highway Company, of which F. C. Matthews, of Colorado Springs, is traffic manager.

A wonderful view of the course is obtained by spectators. From the starting point, at Crystal Creek Bridge, between mile posts 5 and 6, on Pike's Peak Highway, to the finish at the tip-top point, mile post 18, the throng is provided with a series of thrills that are at times hair raising, as the powerful cars flash up the steep grade.

All three events will be run as one race, and to the car making the best time, regardless of class or event entered in, will go the Penrose Trophy. In addition, this winner will receive $500 in cash. A similar amount will go to winners of two other classes, while second-place cars will receive $200 in cash.

From practically any point on the picturesque race course spectators can look downward thousands of feet to the starting point and watch the speed demons climb the rock-walled sides of the giant peak and race to its snow-clad summit above the clouds. Traveling at a mile a minute around sharp curves, the drivers constantly court death in their efforts to capture the coveted prizes.

The cars entered and their drivers follow:

MORE THOROUGH TEACHING NEEDED

—SAYS F. A. THOMPSON.

TALKS BEFORE COUNTY TEACHERS THIS MORNING.

ADVICE TO NOVICES

Given by Somerville, County Superintendent, In Making Announcements at Teachers Meeting.

Pleading for more thorough and definiteness in their teaching methods, F. A. Thompson, rural school inspector of this district, spoke before the teachers of Nodaway County at the auditorium of the High School at the opening session of annual summer teachers' meeting this morning.

Mr. Thompson's subject was relative to the "Elementary School Program of Northwest Missouri." Mr. Thompson hoped that the teachers of this county realized that education is an investment and also desired that the people of this section of Missouri could be of the same opinion and asked the teachers to instill such sentiment.. At the same time he mentioned the fact that although teachers' salaries had been lowered in some counties of Missouri, the same scale had remained intact in Nodaway County.

At two o'clock this afternoon there were 195 teachers registered for the meeting at the high school building. A large number of teachers were attending the division meetings and had not registered at that time.

Recommending to the teachers the course in citizenship that has been outlined in the state course of study, Mr. Thompson said that teaching citizenship to the pupils while they are in the plastic state is one of the paramount objects of schooling.

The rural school inspector also spoke briefly concerning teachers following the ethics of the profession. He said that "we must cease to run harem-scarem through the country applying for jobs" but asked the teachers not to apply for a job until they knew that the school was open and that there was a vacancy that had to be filled.

Filing applications for schools where it is known that the place is filled and also quoting a lower salary than is being given, was unethical and should not be practiced, was the opinion Mr. Thompson rendered. He spoke briefly of the demonstration schools that would be conducted in this county during the school year and asked all the teachers to attend the demonstration schools with a lively interest.

In winding up his talk to the teachers of the county present at the meeting Mr. Thompson pleaded for more thorough teaching and asked for the elimination of the hit-and-miss process. He wished that the teachers of Northwest Missouri to begin with the opening of school next week to put their efforts to the best ability, realizing the responsibility of their position and yet at the same time the glorious opportunity before them. He asked the teachers to teach the best they were capable and every day do the best of their ability.

The opening session of the two-days' summer teachers' meeting was attended by nearly seventy-five teachers. Leslie G. Somerville, county supt. of schools, made several important announcements and gave timely advice to the new teachers, saying that next Monday when school begins in this county 50 per cent of the rural school teachers would begin their first day's work.

Mr. Somerville also spoke about first class schools. In his remarks he mentioned that Nodaway County now leads in first class schools in this state but the important object was to keep in this position.

After Mr. Thompson's address the teachers were required to register while Mrs. Sylvia Adcock gave a short demonstration lecture on primary songs.

During the afternoon session the teachers met in three different groups according to their special line of teaching for the purpose of discussion and hearing timely speeches.

The grade teachers met with Addie Carpenter as chairman of the meeting; the rural school teachers, with Elizabeth Shamberger as chairman were in session and Ed Adams was was chairman of the meeting of the high school session. MARYVILLE HOST 1925 TOURNAMENT

OF IOWA-MISSOURI GOLF ASSOCIATION.

NO DECISION MADE

However Indications Are That This Town Is the Logical Place for Next Year's Event.

If plans work out according to present indications the 1925 Iowa-Missouri Golf Association open tournament will be played in Maryville.

Clarinda, Red Oak, Shenandoah, and Maryville are the only towns in the association with courses that are in a state of improvement to permit an association tourney. As the tournament this year was held at Clarinda and as alphabetically Clarinda comes first it was the decision of those at the tournament that Maryville would be the logical place for next year's meet.

Local golfers have expressed their wish that the tournament be held here. The local course will be much better next year and the interest taken in the game warrants the choice.

The new clubhouse will be completed and all facilities for the adequate handling of a large tournament will be on hand.

The tourney just completed at Clarinda was a success from all angles. Each match was well handled and the townspeople of Clarinda were more than hospitable, according to the Maryville men who played.

No decision has been made definitely on the matter but it will be decided in the near future.

Hopkins Woman Takes Poison

(Hopkins Journal).

Deciding she was tired of living, Mrs. Frank Thompson, on the George Ulmer Jr. farm, 4 miles southwest of Hopkins, took poison about noon last Monday. When the husband came in for dinner, he noticed something was wrong and his wife told him what she had done. He at once called Drs. Maxwell and Sargent and although Mrs. Thompson had been in convulsions, they succeeded in saving her life with the use of a stomach pump and the proper medicines. She had taken fully a grain of strychnine and as a twelfth of a grain is enough to prove fatal, it is a wonder her life was saved.

RADIO UNITED PALS.

In 1908 Ernest Kessler and Dallas E. White started together in the radio business at Alva, Okla. The two worked together as partners until in 1911 when Mr. Kessler moved to California. Two years later Mr. Kessler returned to his old home town only to find that his partner had moved to the eastern coast. Mr. Kessler made all kinds of efforts to locate his partner but was unsuccessful.

In 1917 Mr. Kessler moved to Maryville to become an employee of the Hanamo Telephone Company. All of the time he has been an ardent radio fan and now has a small powered station, 9 D. V. P.

About two weeks ago Mr. Kessler was looking through the Amateur Radio Call Book and found the name of Dallas White, his partner in Oklahoma, who is now operating a station at Brockton, Mass., under the call letters of 1 E. U. Mr. Kessler immediately wrote to his former partner and now the two are in touch with one another again—thanks to radio. Mr. Kessler said this morning that he could receive White's station on his radio set but his own sending set was not powerful enough to reach the eastern coast.

DAVIS PREPARING TO INVADE WEST

WILL DISCUSS AGRICULTURAL RELIEF AT OMAHA.

HAS A DEFINITE PLAN

September 6 He Will Urge Lower Tariff and Freight Rates and Better Marketing.

Locust Valley, N. Y., Aug. 28.—John W. Davis, Democratic presidential nominee, remained in seclusion today preparing an oratorical broadside for his coming invasion of the West.

Davis was busy with the actual compiling of data for use in preparing an agricultural speech to be made at Omaha on September 6.

The Omaha speech will mark the nominee's first big bid for the farmer vote. In it he will promise a definite program of legislation and administrative relief for the agricultural West. Among the proposals to be incorporated in the address, it was said, would be pledges of lower tariff rates on articles bought by the farmer, reduced freight rates, active government aid for co-operative marketing, creating a federal agency for distribution of crop news, and the adoption of a foreign policy intended to revive European markets.

The nominee, it was said, is anxious to get Charles W. Bryan's views on relief measures needed by the western farmer and will visit Bryan in Lincoln while he is in the West.

Davis will go to Chicago Monday night.

On his return from the West, Davis will probably invade New England in an effort to carry several of President Coolidge's "home states." The candidate will speak in Maine, New Hampshire, Massachusetts, and Rhode Island.

Washington, Aug. 28.—Information in the possession of the post office department has forced Postmaster-General New to the conclusion that William Fahy, so-called "ace" of postal inspectors, now under arrest on the charge of being the "master mind" in the two million dollar mail robbery at Roundout, Ill., was guilty of wrong doing, New said today.

Thomas Tallon Given An Office in M. F. A.

Thomas Tallon, east of Maryville, was elected a director-at-large of the Missouri Farmers Association at the 3-day annual convention which adjourned yesterday at Sedalia. Other officers elected were: George M. Kelley of Tipton, president; A. J. Crawford of Atlanta, vice-president; other directors-at-large, N. J. Ball, Montgomery City and J. S. Weathers, Windsor.

The convention adopted resolutions voicing strong opposition to the purchase of elevators by the recently organized grain corporation, and also to amendment No. 5 to speed up the road construction program in Missouri through increase in motor car license fees and a 2-cents-a-gallon tax on gasoline.

The Women's Progressive Farmers' association was commended. Members of the association were urged to support in the fall election those representatives who supported the McNary-Haugen farm relief bill and to oppose those who were against it. A resolution also was adopted, thanking Sedalia and its citizens for courtesies extended during the convention.

Seven hundred farmers have signed the "producers contract" whereby they agree to market all their produce through the association for a period of five years, according to the report by Howard A. Cowden of Columbia, association secretary.

VERDICT OF LOEB-LEOPOLD, SEPT. 10

THEN ONLY IN PRESENCE OF RELATIVES AND ATTORNEYS.

JUDGE REBUKES CROWE

States Attorney Reprimanded for Stating That Defendants Had "Friendly Judge."

Chicago, Aug. 28.—Nathan F. Leopold, Jr., and Richard A. Loeb, the intellectual collegians, who slew Bobby Franks "for a thrill" will be informed on September 10 whether they will pay with their lives on the gallows or with life term imprisonment for that wierd crime.

Judge John R. Caverly fixed this date today at the conclusion of the case which has occupied nearly six weeks.

On that day Loeb and Leopold, their attorneys, and relatives will gather again to hear their fate and no one else will be admitted on that day. Judge Caverly warned in making announcement from the bench.

An otherwise drab conclusion to the trial was broken by a stinging rebuke which Caverly administered to state attorney Crowe.

Crowe had referred in his speech to a statement made by a witness, wherein Leopold was quoted as saying that he could plead guilty before a friendly judge and get a life sentence instead of the gallows.

"I do not know," Crowe shouted, "whether the court believes this or Leopold ever said this but I submit that anyone who has observed the acts of this defendant in court or the actions of his relatives or attorneys, know [illegible] believe they have a friendly judge."

Judge Caverly's face reddened a little but he said nothing. A few moments later, however, when Crowe had finished his rebuke was instant and sharp.

"The court will order the closing remarks of the state attorney striken from the record. It is a plain attempt to intimidate this court and this court will not be intimidated," he said plainly.

Crowe tried to interrupt with a protest but was waved down with a warning gesture and Caverly calmly read a written statement he had prepared which set the date of Sept. 10 for decision and contained a spirited answer to those who have "criticised the conduct of this case."

LARGEST CIRCULATION IN NODAWAY COUNTY.

MORE NATIVE STOCK.

The native population of the United States is on the increase, according to Dr. Raymond Pearl of the School of Hygiene and Public Health of John Hopkins University at Baltimore. Dr. Pearl estimates that what he considers the maximum population of the country, 197,274,000, to be reached in 2100, will be even more distinctly American than the stock today.

Dr. Pearl's figures are based on a study of the birth and death rate figures from registration states during the period from 1915 to 1921, inclusive. They show that the native-born American, whose birth rate was virtually equal to the death rate in 1915, rose to 142 births to 100 deaths in 1921. In 1915 foreign born mothers were giving birth to 267 children to every 100 deaths. In 1921 this ratio had been reduced to 237 births in every 100 deaths.

To persons who had manifested apprehension that the native American stock faced extermination due to the influx of aliens this news is quite encouraging. The gain of the native stock as against that of the alien is slow, to be sure, but it is steady, and as Dr. Pearl points out, ultimately will give the native stock a decided advantage. The present immigration restrictions should also advance the ratio of native growth.

WAR AS A CRIME.

Governor Gifford Pinchot of Pennsylvania would outlaw war as a crime. In his words delivered at a Chautauqua the chief executive of the state said:

"There are two things to do about war. One is to prevent it from coming. The other is to be ready for it, if, unhappily, it should come. In the present stage of world civilization both are absolutely necessary. We have outlawed duels, slavery, the saloon. Why cannot we outlaw war?"

John W. Davis says the greatest difference between the two old parties this year is that "A Democrat wants the record of his party remembered and a Republican wants the record of his party forgotten."

Our astronomical eyes it seems couldn't see very much of Mars even though the planet was only 35,000,000 miles distant. It doesn't matter much. Mars will be back in 120 years and by that time maybe we will have bigger telescopes and better radios.

A Chicago burglar, now in jail and facing a long term in prison finds that after committing 100 robberies, that his family was in want and he hadn't been able to save as much as when he ran a truck farm and made a living honestly. And, come to think of it, how many did you ever know who lived a life of crime and were able to accumulate anything or exist in peace? Most of them go to prison, some of them come to untimely ends and a very few manage to evade the detectives who are always on their trails. Honesty and work are the only means by which men ever successfully lived in comfort or peace. And this is a fact that boys can not learn too early.

Many Governors to Attend Exercises

Missouri's New State Capitol To Be Dedicated On Monday, October 6.

Governor L. F. Hart of the state of Washington, a native-born Missourian, will be among the notables who are to attend the dedicatory exercises of Missouri's new State Capitol on Monday, October 6. The governors of eight states have signified their intention of attending these ceremonies and taking part in them.

Approximately 4,000 persons will receive special invitations, personally signed by Governor Arthur M. Hyde and this list will include distinguished personages from all over the United States, Floyd C. Shoemaker of the State Historical Society preparing the list.

It is expected that many of the pieces of decorations that have been in the course of making will be in place by the date of the dedication, the imposing figure of the Goddess of Harvest which is to grace the top of the Capitol dome being now almost ready to be shipped here. Practically all of the unfinished paintings will be placed by that time.

The fact that $700,000 was appropriated merely for the decorations of Missouri's magnificent Capitol and that this sum has been most wisely expended in the most worth while way, makes the dedicatory occasion merely as a sight-seeing event, one of outstanding importance.

Reservations from out in the state are already being made at Jefferson City hotels, and a housing committee of local women are in charge of the plans for entertaining the many thousands of visitors at the dedication, including the 114 Queens, one from each county, who are to participate in the ceremonies. These young ladies are to be under the chaperonage of the Women's Committee and every courtesy will be extended them.

Kansas City, Aug. 28.—Sometime before February 26, 1925, possibly during January, Kansas Cityans will have an opportunity to vote on a city charter of the council-manager type. Before that time a city-wide organization for the distributing of information on the proposed new charter, working for its adoption, and for propoting its proper operation if adopted, will be perfected.

A Better Wheat Crop Than Other Sections

Kansas City, Aug. 28.—The wheat crop of Kansas City's trade territory, excepting Missouri is far better than that of any other section. Figures comparing this year's crop with that of 1923 as compiled by the United States Department of Agriculture and the Missouri State Board of Agriculture show Kansas, Nebraska, Oklahoma, Colorado and Texas as having an increase in better wheat.

12 Danger Signs of Bad Investments

Kansas City Chamber of Commerce Lists Characteristics of "Blue Sky" Propositions.

Kansas City, Aug. 28.—The Kansas City Chamber of Commerce has published in the current issue of their "House Organ," a list of twelve danger signs of bad investments, which are given below:

1. Stay away from mining stock in general. It takes more than the man working for a salary has to afford good mining stock.

2. Oil stock. Drilling for oil is costly. Oil stock investments are speculative and in a class with mining stocks.

3. In the wake of every important discovery or invention there comes a host of schemes—"airplanes," "radio," "wireless." The promoters of these may have only the best inventions, but frequently their enthusiasm is about all they have to sell.

4. Investment in "real estate" situated in some distant place is sometimes dangerous as mining stock.

5. "Land development" schemes frequently do not pan out. Investment in "new companies" that are going to "sell by mail" should be generally avoided.

6. Patent rights and processes distribution. It is rarely the patentee who makes the money.

7. "New manufacturing methods" should always be closely checked and investigated.

8. An investment requiring a quick decision is often a fake.

9. "Special inducements" in cash discounts or stock bonuses urging you to be one of the first to invest are suspicious symptoms.

10. "Tips" alleged to land you "on the ground floor" are rarely to be taken. Those who are "on the ground-floor" will monopolize the opportunity.

11. "Playing the stock market on margin" and all other forms of speculation are decidedly not for the small investor. If you buy stocks outright for investment do so through a member of a legitimate exchange.

12. Stock in "mail order companies" being organized with promises based on what others have done rarely turn out well.

LITTLE STORY FOR TODAY.

A bellboy has invented an ingenious system of calling sleepy guests. The other night a man left instructions that he wished to be called early.

Next morning he was disturbed by a tattoo on the door.

"Well?" he demanded sharply.

"I've got a message for you, sir."

Yawning until he strained his face, the guest jumped out of bed and unlocked the door. The bellboy handed him an envelope and then went away quickly.

The guest opened the envelope and took out a slip of paper bearing the words: "Its time to get up."

A friendly salesman at a clothing store tells us that boys' clothing experiences a big slump in summer vacation time," he explained.

WEAK, SUFFERING WOMEN SHOULD TAKE KARNAK, SAYS TRAINED NURSE.

"I feel it my duty to tell other suffering women about Karnak," declares Mrs. Donna Lamborn, popular trained nurse, residing at 1224 Trust Ave., Kansas City, Mo.

"For the past three years I was simply miserable from headaches, dizziness, nervousness, weakness and aching pains through my whole body. I would get so upset that I would just cry without knowing what I was crying about. I had awful stomach cramps, too, was losing weight, didn't have any color in my face, couldn't rest at night, and began to fear I would break down completely.

"But this wonderful Karnak has rid me of all the aches and pains. It has made my digestion perfect, I am gaining weight, my cheeks are filling out, and I now feel cheerful and happy. I believe any woman who suffers as I did should take Karnak two or three times a year. It's just grand."

Karnak is sold in Maryville exclusively by Maryville Drug Co.—Adv.

Winter's Herefords Bring Highest Top

Barnard Cattle Raisers Sell 24 Yearlings At Kansas City for $11.25—An Unsorted Bunch.

In a run of 30,000 cattle Monday at the Kansas City cattle market, Winter Bros., of Barnard, topped the market at $11.25 per hundred weight, with twenty-four yearling steers that averaged 979 pounds.

This price was 50 cents higher than any other steers sold on that date and was the highest price paid for an unsorted bunch, straight feed lot cut, in several weeks.

In the last ten days some yearlings sold at $11 and $11.25, but several head were sorted out at a much lower figure.

Winter Bros., bought these cattle on the same market the first week in June at $9.25, when they weighed 700 pounds.

They were fed eighty days in which time they gained 200 pounds and brought a margin of $2 over first cost. They were choice native bred Herefords.

Nodaway Cattle Sell at $9.50 at St. Joe

Three Nodaway County cattle raisers marketed steers and heifers on the St. Joseph market yesterday and received a cash value of $9.50 for them. W. F. Welch sold a load of 889 pound steers and heifers; J. M. Slagle cashed a load of 840 pound steers and heifers; and M. M. Ashford marketed a load of 899 pound yearlings.

Maryville People Must Believe Such Convincing Testimony as Mr. Bryan's.

No one in Maryville who suffers backache, headaches, dizziness, rheumatic pains or distressing urinary ills can afford to ignore this twice-told story of a Maryville resident. It is confirmed testimony, telling of lasting benefit from Doan's Pills—a stimulant diuretic to the kidneys. It's evidence that no man or woman in Maryville can doubt.

J. N. Bryan, retired farmer, 222 Eleventh St., says: "I had intense soreness through the small of my back, which caused great pain when I tried to bend or straighten quickly. My kidneys acted too frequently, also. I used Doan's Pills and I found great relief. After using Doan's awhile I was cured.

Four years later, Mr. Bryan said: "I have had no return of the trouble since Doan's cured me."

AUTOS TO RACE UP PIKE'S PEAK

SEVENTEEN DRIVERS GROOMING THEIR MOUNTS.

$10,000 CUP OFFERED

In Addition To Cash Prizes—Will Be A Three-Event Affair Labor Day.

Denver, Aug. 28.—With the roaring motors of 17 powerful automobiles already in training over the hazardous course, the annual Pike's Peak automobile climb will be staged Monday, September 1.

The hill climb is one of the most spectacular events in American automobile racing, the course being over a distance of 12½ miles of the world's highest highway. It is a double track boulevard 20 to 50 feet wide all the way and is as smooth and even as a pavement.

Added interest is involved in this year's competition, as the Penrose Trophy, a silver-and-gold cup standing forty-three inches high and valued at $10,000 will be awarded in addition to the valuable cash prizes.

The climb, a three-even affair run in one race, is conducted under the sanction of the contest board of the American Automobile Association and is promoted by the Pike's Peak Auto Highway Company, of which F. C. Matthews, of Colorado Springs, is traffic manager.

A wonderful view of the course is obtained by spectators. From the starting point, at Crystal Creek Bridge, between mile posts 5 and 6, on Pike's Peak Highway, to the finish at the tip-top point, mile post 18, the throng is provided with a series of thrills that are at times hair raising, as the powerful cars flash up the steep grade.

All three events will be run as one race, and to the car making the best time, regardless of class or event entered in, will go the Penrose Trophy. In addition, this winner will receive $500 in cash. A similar amount will go to winners of two other classes, while second-place cars will receive $200 in cash.

From practically any point on the picturesque race course spectators can look downward thousands of feet to the starting point and watch the speed demons climb the rock-walled sides of the giant peak and race to its snow-clad summit above the clouds. Traveling at a mile a minute around sharp curves, the drivers constantly court death in their efforts to capture the coveted prizes.

The cars entered and their drivers follow:

WOMAN WEAK & DIZZY, FAINT

Found Relief in Taking Lydia E. Pinkham's Vegetable Compound. Always Recommends It

Bridgeport, Connecticut. — "I was completely run-down, had headaches, dizzy, faint feelings and other troubles women often have. As I had taken Lydia E. Pinkham's Vegetable Compound before, my husband said to take it again. I have now taken Lydia E. Pinkham's Blood Medicine, the Liver Pills, and six boxes of Lydia E. Pinkham's Vegetable Compound Tablets. I am feeling very good now and shall continue taking them for a while. I have been telling my cousin about the medicine and she wants to take it, too. I always recommend it." — Mrs. HENRY C. SMITH, R.F.D. No. 3, Box 6, Bridgeport, Conn.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for such conditions. It has in many cases relieved those symptoms by removing the cause of them. Mrs. Smith's experience is but one of many.

In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, over 121,000 replies were received, and 98 per cent. reported they were benefited by its use. For sale by druggists everywhere.
